California Energy Commission  
EPS Compliance  
1516 Night Street  
Sacramento, CA 95814

Attention: Compliance Filing

Dear Sir/Madame:

This is to inform you that Golden State Water Company dba Bear Valley Electric Service (GSWC/BVES) intends to enter into a contract for renewable energy in September 2009 with Sanitation District No. 2 of Los Angeles County. The contract information is as follows:

Name of Counterparty: Sanitation District No. 2 of Los Angeles County  
Name of Facility: Palos Verdes Landfill (Gas-to-Energy)  
Location: Rolling Hills Estates, CA  
Technology: Landfill Gas  
Nameplate Capacity of Facility: 12.5 MW  
Product Description: Power Purchase Agreement for up to 3.0 MW baseload energy  
Substitute Energy Allowed: No  
Delivery Start/End Date: January 2010 (estimate) – December 2019

BVES is asking that the Commission find that this contract is compliant with the greenhouse gas emission performance standard set forth in Chapter 11 of Title 20 of the California Code of Regulations. Specifically, GSWC/BVES asserts herein that the facility under contract is compliant pursuant to Section §2903(b) of the regulations, and that any substitute energy allowable under the contract meets the requirements of Section §2906.

If you need any additional information to complete this request, please contact me at 909-866-4678, extension 186.

Sincerely,

Peter Pearson  
Energy Supply Specialist

C: Tracey Drabant, BVES  
Nguyen Quan, GSWC
